

SUPPLEMENT TO THE GAZETTE OF INDIA, JANUARY 5, 1907.

North-west India.—Skies were clear or only partially clouded for greater part of the week, but on the 3rd January pressure gave way and cloud appeared over nearly the whole division. Weather was warmer than usual, both by day and by night, more particularly in the Frontier Province and the Himalayan region.

The Peninsula.—Rain was reported on the 28th from South India, Mysore and the Circars coast, but as the depression from the Bay of Bengal advanced north-westwards, rainfall extended into the Deccan, where it was fairly general on the 29th. Rainy weather continued in the Peninsula for the next two days, but the falls became more local in character and ceased on the 1st. Skies were more or less thickly clouded, and night temperature was in consequence largely above normal, the excess being most marked in the Bombay Deccan.

The rainfall of the period, from the 30th November to the 3rd January, was largely above normal in most divisions of the Peninsula, and was also in excess in the North-west Dry Area and the rainfall sub-divisions of Ludhiana and Jaipur. In other parts of the country rainfall was in defect.

The following summarises the chief rainfall amounts of the week, as reported at 8h., each day:

December 28th, Gopalpur 1.63", Masulipatam 1.32", Nellore 1.74" and Madura 1.39".
" 29th, Gulbarga 2.62", Cocanada 2.94", Ahmednagar 2.09", Chitaldroog 1.2", Nizamabad 1.10" and Bijapur and Karwar 1.06".
" 30th, Pendra 1.46", Cocanada 1.78", Hyderabad (Deccan) 0.90", Masulipatam 1.88" and Kurnool 2.80".
" 31st, Masulipatam 0.98" and Kurnool 1.61".

SUPPLEMENT TO THE GAZETTE OF INDIA, JANUARY 5, 1907.

E. D. MACLAGAN,
Offg. Secretary to the Government of India.

SIMLA

The 3rd January 1907.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.Season and Crop Prospects for the week ending Saturday,
29th December 1906.

Burma.—Slight showers fell in Sandoway and the Arracan Hill tracts during the week. Reaping of early wet weather paddy is completed in Thayetmyo and that of late wet weather paddy is proceeding satisfactorily everywhere. Threshing has commenced in Prome and Tavoy. Plucking of cotton is completed in the Gangaw township of Pakokku. Transplanting of tobacco and onions is completed in Mandalay. Sowing of beans and tobacco on islands is completed and reaping of late wet weather paddy has commenced in Myingyan. In parts of Mandalay the dry weather paddy nurseries are withering for want of water from canals. The standing crops are generally in good condition and the prospects of the harvests are on the whole favourable. The price of paddy has fallen largely in Toungoo; considerably in Bassein, Thaton, and Tharrawaddy; and slightly in Mandalay and Mergui; elsewhere it is stationary.

Eastern Bengal and Assam.—The weather is seasonable. There was no rain during the week. Rain is wanted in Lakhimpur for the winter crops. The tea season is practically closed; the outturn is good in Nowgong and fair in Darrang. Pruning of tea has commenced in most places. Plucking of cotton; harvesting of winter rice; and transplantation of summer rice are in progress. Insects are still causing damage to the mustard crop in parts of Kamrup. Prospects of cotton are unfavourable in the Garo Hills and the Khasi and Jaintia Hills; fair in Nowgong; and good in Sylhet. Prospects of winter rice and other standing crops are moderate. Prices of common rice:— Manipur 10; Kohima 10; Rangamati 9½; Dinajpur and Sibsagar 9; Barisal, Chittagong, Silchar, Tezpur, and Dibrugarh 8½; Faridpur, 7 to 8; Bogra, Maldā, Sylhet, Ajral, Dhobri, Gayhati, and Nowgong 8; Comilla and Jalpaiguri 7½; Pabna 7½; Mymensingh 7½; Dacca, Noakhali, and Rampur Boalia 7; Tura 6 to 7; and Rangpur and Shillong 6½ seers per rupee. Prices have risen in seven; fallen in eight; and remain stationary in the remaining districts. There are no test works open in any district. Three hundred and sixty-four persons received gratuitous relief in Sylhet. Prices are daily falling and the condition of people is improving with the new crop now on the market.

Bengal.—Rain is reported from Bankura, Angul, Puri, Sambalpur, Ranchi and Singhbhum, the fall being light except in Angul and Singhbhum, where it was moderate. Harvesting of winter paddy is still going on. Pressing of sugarcane continues. The spring crops are doing well, but rain is needed for them in the Patha and Bhagalpur Divisions. The number of persons receiving gratuitous relief is—Muzaffarpur 919 and Darbhanga 15,847. The number of persons on test-works is—Muzaffarpur 130, and Darbhanga 1,449. The number on relief works in Darbhanga is 32,437. The price of common rice has risen in three and fallen in six districts.

United Provinces.—No rain fell during the week; it is needed in districts which have not had it. The standing crops on the whole are in good condition. Irrigation and weeding are being carried on and sugarcane pressing is in progress. Slight damage by locusts is reported in Gharwal and by frost in parts of Agra, Farrukhabad, Cawnpore, and Hamirpur. Cattle are generally healthy. Markets are full but fodder continues scarce in Sitapur and Rae Bareli. Prices are stationary but high.

The weekly report on the scarcity is as follows:—No rain fell during the week in Gorakhpur. Irrigation continues and crops are in good condition except in tahsil Bansgaon where slight damage is reported for want of rain. Supplies and fodder are adequate and prices remain stationary. The numbers on relief are:—on works 1,196; on gratuitous relief 1,375; in poor houses 303; total 2,874.

Punjab.—Slight rain has fallen in parts of Ambala and Rawalpindi. There is very little fluctuation in the prices of food grains; wheat is rising in Rohtak and falling in Ambala, and Sialkot. Cotton picking and sugarcane pressing continue in some districts. Sowings of spring crops are still in progress in Sialkot and Rawalpindi. Harvesting of toria (*Brassica campestris*) is in progress. The condition and prospects of the standing crops are generally good. Rain is needed for unirrigated crops in Hissar and Rohtak. The yield of cotton is poor in Multan and average in other districts and that of toria (*Brassica campestris*) average in Shahpur. Locusts appeared in Rohtak, Ambala, Amritsar, Sialkot, Mianwali, and Multan but did no damage. Cattle are generally in good condition. Fodder is sufficient. There are no complaints regarding the water-supply.

North-West Frontier Province.—No rain. Unirrigated spring sowings are still in progress. The condition of the standing crops on irrigated and unirrigated areas is generally good; crops have been slightly damaged by locusts in the southern part of the Dera Ismail Khan District. The water-supply is sufficient. Fodder is ample. The condition of cattle is good except in Dera Ismail Khan. Prices are fluctuating but are easy. Prices:—wheat 14½ to 18½; gram 16½ to 22; maize 16½ to 27½; and bajra 18½ to 20 seers per rupee.

Jammu.—No rain. Prices are fluctuating. Prices:—wheat 17 to 24 and maize 21 to 35 seers per rupee. The condition of the standing crops is good. Fodder is sufficient. Sowings of spring crops are in progress.

Kashmir.—The weather is bright and cold. Prices are stationary.

Rajputana.—Rainfall:—Nizamat Bikaner forty-one cents. Agricultural operations are satisfactory. Prospects are generally satisfactory. Pasturage or fodder is sufficient. Prices are nearly steady throughout though still high in places.

Central India.—No rain. Autumn harvesting and picking of cotton are in progress. The standing crops and the probable outturn are good. Pasturage is good. Prices are high in Gwalior and Baghelkhand; and are stationary elsewhere. Irrigation and weeding of opium are in progress.

Central Provinces.—Rain was received in most districts during the week ranging from 1 inch in Seoni and Chhindwara to 33 cents in Bhandara. These showers have greatly benefited the spring crops but have damaged *juar* and cotton to some extent in Akola and Yeotmal. Cloudy weather has also injured the crops slightly in Nagpur, Chanda, Drug and Akola. Picking of cotton and threshing and winnowing of autumn crops still continue. Prospects are favourable and fodder and water are sufficient. Wheat has become slightly cheaper in Damoh, Drug and Bilaspur and rice in Nimar and Raipur; *juar* has become dearer by one seer per rupee in Narsinghpur and Buldana and cheaper by 1½ seers in Damoh; elsewhere prices are steady but still maintain the scarcity level in Chanda and Bilaspur.

Bombay.—The rain during the week in parts of Katnagiri, Kanara, the Deccan, the Karnatak and Kolhapur was beneficial to the standing crops except in parts of Kanara, Bijapur and Belgaum. More rain is needed in parts of the Deccan and the Karnatak where the crops are withering. Crops have been slightly damaged by locusts in parts of Hyderabad, Upper Sind Frontier, Thar and Parkar and Mahi Kantha; by insects in parts of Upper Sind Frontier and Thar and Parkar; and are generally in good condition elsewhere. Harvesting of autumn crops is nearly completed and threshing continues. Spring sowings are nearing completion. Cotton picking continues in Sind, Broach, the Deccan and Kathiawar. The supply of drinking water is generally sufficient and water for irrigation purposes is adequate except in parts of Ahmednagar, Poona and Sholapur. Agricultural stock is sufficient except in Ahmednagar, Sholapur, Bijapur and Cutch. The fodder supply is sufficient. The quantity of food grains purchasable per rupee is in the Deccan 23 per cent. above normal to 20 per cent. less than normal, and elsewhere normal to 25 per cent. below.

Hyderabad.—Rainfall:—16 cents. The early rice harvest still continues. Spring crops are in good condition and weeding continues. Late rice is being sown. Prices:—wheat 8; coarse rice 7½; and *juwar* 16 seers per rupee.

Mysore.—There was slight rain throughout the State. The standing crops are in good condition and are being generally harvested. The prospects of the season are good. Cattle are healthy and water and fodder are available.

Coorg.—Rainfall:—30 cents. Picking of coffee and reaping of rice continue. Prices of food grains are stationary. Water and fodder are sufficient.

Madras.—The rainfall of the week was heavy in Tanjore; good in Nellore, South Arcot, Madras, North Arcot, Trichinopoly, Guntur, Chingleput, and Godavari; and light to fair elsewhere. Irrigation supplies are sufficient except in parts of Kistna, Bellary, Anantapur, Salem and Madura. Ploughing, sowing, weeding and transplanting are in progress in parts. The standing crops are generally fair, but in some parts of Godavari, Kistna, Kurnool, Tanjore, they have been damaged by heavy rain. Harvests continue with outturn poor to normal and lumper. Pasture is sufficient except in parts of Kistna and Bellary. Fodder is scanty in parts of Godavari, Kistna, Anantapur, Tanjore and Madura. The condition of cattle is generally good. The price of rice is stationary in twelve districts; has fallen in eight; and has slightly risen in three. The prices of millets

have fluctuated as follows :—*Ragi* is stationary in eight districts; has fallen in seven; and has slightly risen in six. *Cholam* is stationary in six districts; has fallen in one; and has slightly risen in seven. *Cumbu* is stationary in six districts; has fallen in two; and has slightly risen in eight.

The number of persons in receipt of relief during the preceding and present weeks in each Province or State is shown in the following table :—

PRINTING, INDIA, No. 8, Hastings Street, Calcutta.*

SUPPLEMENT TO
The Gazette of India.

No. 2.} CALCUTTA, SATURDAY, JANUARY 12, 1907.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall Summary for the seven days ending at 8 h., on Thursday,
the 10th January 1907, based on the Indian Daily Weather
Reports of the period.**

Weather was dry during the first half of the week in northern India, but on the 6th pressure gave way briskly in Gujarat, south Rajputana and the adjacent districts of Central India, and an area of low pressure was formed there. On the 7th a rapid fall of the barometer in Baluchistan, accompanied by thick cloud in that area, showed the formation of another depression, which also apparently was of local origin and was not transmitted from Persia. On the 8th this depression was shown lying over north Rajputana and the south-west Punjab, and cloud had extended over north-west India, except in Sind and Gujarat, while snow was falling in Kashmir. The area of low pressure from Gujarat had in the meantime entered Central India, and skies were cloudy there and over the whole of the United and Central Provinces. The depression in Rajputana was in practically the same position on the 9th, and had given snow and rain in the west Himalayas, and rain in the submontane districts of the Punjab, while the area of low pressure in Central India had also been stationary, but had increased in intensity and importance. The combined action of these two disturbances caused during the next twenty-four hours widespread precipitation extending over the west Himalayas, the submontane and east Punjab, the United and Central Provinces and the east of Central India. Both disturbances then filled up rapidly and had practically disappeared by the morning of the 10th. In the Peninsula no disturbance of any importance appeared, but there were a few falls of rain—due to generally unsettled conditions shown chiefly by the presence of cloud.

Burma.—Skies were clear or only lightly clouded, and temperature was generally above normal, except in Tenasserim.

North-east India and Orissa.—Skies were clear over the greater part of the division until the 10th, when the approach of the area of low pressure from Gujarat caused the appearance of cloud in all parts except Assam. Temperature was nearly normal during the first part of the week and was in general excess during the second.

The United Provinces, Central India and the Central Provinces.—Skies were nearly clear during the first few days of the week, but the advance eastward of the area of low pressure from Gujarat caused an increase of cloud, and by the end of the week skies were overcast in the whole division, and night temperature was in consequence considerably above normal. Rain was reported on the 10th from the east of Central India and most stations in the United Provinces and the northern districts of the Central Provinces.

North-west India.—Skies were cloudy throughout the week in Kashmir, but in the plains of north-west India they were clear till the formation of the depression in Baluchistan and its advance into north Rajputana, when cloud spread over the whole division, except Sind and Gujarat. Snow commenced falling in Kashmir on the 8th and continued in that region during the remainder of the week, while rain was received in the Frontier Province and parts of the Punjab and of Rajputana on the 9th and 10th. Temperature was in general excess throughout the week, and was most largely above normal at night, but a rapid fall in maximum temperature occurred in the area of rainfall at the close of the period.

The Peninsula.—Skies were cloudy, and local falls of rain were reported on most days of the week. Temperature was nearly normal till the 7th, when night temperature rose and remained in slight to moderate excess during the rest of the week.

The rainfall of the period, from the 30th November to the 10th January, was practically normal or in excess over the greater part of the Peninsula, and in the Punjab, the Frontier Province and Rajputana. The excess was largest in the Deccan and Mysore.

The following summarises the chief rainfall amounts of the week, as reported at 8h., each day:

January 6th, Negapatam 1.08" and Pamban 1.85".

" 7th, Pamban 1.01".

" 8th, Sonemarg 0.57".

" 9th, Ludhiana 0.76", Murree 1.15" and Leh 0.42".

" 10th, Meerut 0.89", Roorkee 1.21", Dehra Dun 1.84", Chakrata 2.03", Jhansi 0.45", Simla 2.04", Delhi 0.63", Lahore 0.58" and Rawalpindi 0.98".

J. PATTERSON,
for Director General of Observatories.

E. D. MACLAGAN,
Offg. Secretary to the Government of India.

SIMLA;
The 10th January 1907.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
5th January 1907.

Burma.—Slight showers fell in Sandoway and Kyaukpyu during the week. Sowing of early wet weather paddy has commenced in the Southern Shan States. Reaping of late wet weather paddy has commenced in irrigated tracts of Minbu and has been completed in Pegu, Tavoy, and the Monywa sub-division of Lower Chindwin. Threshing is completed in Henzada and is progressing in Tharrawaddy, Prome, Tavoy, and in the Northern Shan States. Ploughing for dry weather paddy has commenced in the Yeu sub-division of Shwebo and is progressing in the Monywa sub-division of Lower Chindwin. Sowing continues in Kyaukse and in Upper Chindwin and is completed in the Pakokku township of Pakokku. Plucking of cotton in Thayetmyo and gathering of groundnuts in Magwe are progressing. Reaping of sesamum is completed in the Monywa sub-division of Lower Chindwin. The standing crops are generally in good condition. The price of paddy has risen slightly in Rangoon, Bagan, Mandalay, and Shwebo; it has fallen considerably in Tharrawaddy, Toungoo, and Minbu; largely in Akyab and Thaton; and slightly in Maubin and Henzada.

Eastern Bengal and Assam.—The weather is seasonable. There was no rain during the week. Rain is wanted for mustard and other winter crops in the Surma Valley and in Upper Assam. The tea season is practically closed; the outturn is good in Sylhet and Nowgong and fair in Darrang. Pruning of tea has commenced in most places. Plucking of cotton; harvesting of winter rice; pressing of sugarcane; gathering of pulses; and transplantation of summer rice are in progress. Insects are still causing damage to the mustard crop in parts of Kamrup. Prospects of cotton are unsavourable in the Garo Hills and the Khasi and the Jaintia Hills; fair in Nowgong; and good in Sylhet. Prospects of winter rice and other standing crops are moderate. Prices of common rice:—Manipur 18; Kohima 10; Rangamati 9½; Nowgong and Sibsagar 9; Silchar, Tezpur, and Dibrugarh 8½; Barisal, Chittagong, Dinajpur, Jalpaipuri, Aijal, Dhubri, and Gauhati 8; Faridpur 7 to 8; Bogra, Pabna and Rampur Boalia 7½; Mymensingh and Sylhet 7½; Noakhali and Malda 7; Tura 6 to 7; and Rangpur and Shillong 6½ seers per rupee. Prices have risen in six; fallen in five; and have remained stationary in the remaining districts. One hundred and seventy-six persons received gratuitous relief in Sylhet.

Bengal.—Moderate rainfall is reported from Sambalpur and Palamau, and a slight fall from Cuttack. Harvesting of winter rice is nearly finished. Sugarcane-pressing continues. Spring crops are doing well. But rain is still needed for them in the Patna Division, and also in parts of the Hooghly, Bhagalpur, Purnea, Palamau, and Singhbhum districts. The number of persons receiving gratuitous relief is:—Muzaffarpur 1,008 and Darbhanga 19,453. The number of persons on test and relief works in Darbhanga is 585 and 48,381, respectively. The price of common rice has risen in ten and fallen in five districts.

United Provinces.—The week was rainless though cloudy and rain is needed generally for spring crops. Weeding and irrigation continues. The condition of crops is good though some injury is reported to the *arhar* crop by frost in one tahsil of the Cawnpore district. Agricultural stock is on the whole in good condition. Supplies are adequate, but fodder is still scarce in Sitapur and Rae Bareli. Prices continue stationary.

The weekly report on the scarcity is as follows:—rain is urgently needed in Gorakhpur. Crops are in good condition except in parts of the Bhat tract where damage is reported both from rust and deficient moisture. Irrigation, weeding and cane pressing continue. Markets are full. Prices have fallen slightly but are still high. The numbers on relief are:—on works 377, on gratuitous relief 1,613, in poor houses 352, total 2,342.

Punjab.—Slight rain has fallen in parts of Jullundur, Ferozepur, Lahore, Amritsar, and Sialkot. The price of wheat is rising in Rohtak, Ambala, and Sialkot and falling in Rawalpindi and Multan; there is very little fluctuation in the prices of other food grains. Harvesting of autumn crops; cotton picking; and sugarcane pressing are in progress in some districts. The condition and prospects of the standing crops are generally good. Rain is needed for unirrigated crops in Rohtak, Ambala and Shahpur. Locusts appeared in Ambala, Jullundur, Sialkot, Shahpur, and Multan causing slight damage in those districts. The condition of cattle is good. Fodder is sufficient. There are no complaints regarding the water-supply.

North-West Frontier Province.—Rainfall *nil*. Spring sowings are still progressing. The condition of the standing crops on irrigated and unirrigated areas is good. Locusts have slightly damaged the wheat and oil seeds crops in Dera Ismail Khan. The water-supply is ample. Fodder is sufficient. The condition of cattle is good except in the Tank tahsil of the Dera Ismail Khan district. Prices show a downward tendency. Prices:—wheat 15 to 19; gram 17 to 22; maize 15 to 27½; and bajra 18½ to 20 seers per rupee.

Jammu.—There was slight rain during the week. Prices are fluctuating. Prices:—wheat 11 to 22 and maize 12 to 28 seers per rupee. The condition of the standing crops is good. Fodder is sufficient except in the Kishtwar tahsil. Sowing of spring crops is nearly over.

Kashmir.—The weather was bright except on the last day of the week when it was cloudy with slight rain. Prices are almost stationary.

Rajputana.—Agricultural operations are proceeding satisfactorily and prospects are generally satisfactory. Pasturage or fodder is sufficient. Prices are nearly steady throughout though still high in places.

Central India.—There were light showers in parts of Bhopalwar during the week but no rain elsewhere. Spring sowings and autumn reappings are in progress. The standing crops and probable outturn are good. Pasturage is good. Prices are normal in Gwalior and Bhopal; high in Baghelkhand; and steady elsewhere. Poppy cultivation is in progress in Malwa and Indore.

Central Provinces.—The weather is cloudy and cool but no rain fell except in parts of Bhandara and Balaghat, improving prospects of the spring crops. Threshing and winnowing of autumn crops; and picking of cotton are in full swing. *Yuar* has been slightly damaged by frost in Jubbulpore and wheat plants by cloudy weather in parts of Hoshangabad; linseed and gram in Wardha, *tur* and gram in Burhanpur tahsil (Nimar), and linseed in Bilaspur and Bhandara tahsils have also been slightly damaged by cloudy weather and by insect pests. The standing crops are generally in good condition and prospects are favourable. Fodder and water are ample everywhere. The prices of food grains have risen slightly in Jubbulpore, Mandla, Nimar, Chhindwara, and Wardha and have fallen in the Chhattisgarh division and in the districts of Damoh, Narsinghpur, and Yeotmal; prices elsewhere are steady but still exceed the scarcity rate in Wardha, Chanda, and Bilaspur; rates are generally cheaper than those ruling at this time last year.

Native States:—Kawardha received nearly one inch of rain during the week. Threshing of rice and *kodon*; picking of cotton; and sugarcane pressing continue. Spring crops are flourishing and prospects are good. Fodder and water are sufficient. Prices have risen in Raigarh owing to large rice exports towards Bengal; elsewhere prices are:—wheat 11 to 20; rice 13 to 17; and *kodon* 18 to 23 seers per rupee.

Bombay.—There was rain during the week in parts of Surat, Ratnagiri, Kanara the Deccan, the Karnatak and Kolhapur. The standing crops have been slightly damaged by locusts and insects in parts of Hyderabad; by recent rain in parts of Kanara and Belgaum; are withering in parts of the Deccan and Bijapur; and are generally in good condition elsewhere. Harvesting of autumn crops is nearly completed and threshing continues. Cotton picking is progressing in Hyderabad, Thar and Parkar, Broach, the Deccan and Kathiawar. The supply of drinking water is generally sufficient and water for irrigation purposes is adequate except in parts of Nasik, Ahmednagar, Poona and Sholapur. Agricultural stock is sufficient except in Thar and Parkar, Ahmednagar, Sholapur, Bijapur, and Cutch. The fodder supply is sufficient. The quantity of food grains purchasable per rupee is in the Deccan 10 per cent. above normal to 24 per cent. less than normal, and elsewhere normal to 25 per cent. below.

Hyderabad.—Rainfall one inch eleven cents. The early rice harvest is nearing completion. Spring crops are in fair to good condition. Weeding continues. Late rice sowing continues. Prices:—wheat 7½; coarse rice 7½; and jowar 15½ seers per rupee.

Mysore.—There was slight rain throughout the State during the week. Prices are generally steady. The standing crops are in good condition and are being generally harvested. The prospects of the season are good; cattle are healthy and water and fodder are available.

Coorg.—Rainfall two cents. Picking of coffee and reaping of rice continues. Prices of food grains are stationary. Water and fodder are sufficient.

Madras.—Rainfall *nil* in the Central districts and Malabar; good in Guntur, Anantapur, Vizagapatam Agency, Kurnool, Kistna and Nellore; and light to fair elsewhere. Irrigation

supplies are sufficient except in parts of Kistna, Bellary, Salem and Madura. Ploughing, sowing, weeding and transplanting are in progress in parts. The standing crops are generally fair but some in parts of Godavari, Kistna, Guntur, and Kurnool have been damaged by recent rains. Harvests continue with outturn poor to normal and bumper. Pasture is sufficient except in parts of Kistna and Bellary. Fodder is scanty in parts of Godavari, Kistna, Salem, Tanjore and Madura. The condition of cattle is generally good. The price of rice is stationary in six districts; has fallen in twelve; and has very slightly risen in five. The prices of millets have fluctuated as follows:—*Ragi* is stationary in six districts; has fallen in eight; and has slightly risen in seven. *Cholam* is stationary in four districts; has fallen in five; and has slightly risen in five. *Cumbu* is stationary in two districts; has fallen in five; and has slightly risen in eight.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table:—

FREDERICK NOËL-PATON
Director-General of Commercial Intelligence
J. S. MESTON
Secretary to the Government of India

SUPPLEMENT TO
The Gazette of India.

No. 3.}

CALCUTTA, SATURDAY, JANUARY 19, 1907.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of Five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall Summary for the seven days ending at 8 h. on Thursday,
the 17th January 1907, based on the Indian Daily Weather
Reports of the period.**

The disturbed weather prevailing in north-west and central India at the close of the previous week was the cause of a few isolated falls of rain in those regions on the 11th. On the next day a depression appeared in west Persia, where it gave rain, and commenced affecting Baluchistan and Kashmir on the 14th, but on entering India it disappeared rapidly without causing any precipitation, except in Kashmir, where light falls of snow occurred on the 15th and 16th. During the last three days of the week weather was disturbed in the south-east of the Bay of Bengal, and moderately heavy rain was reported from the Andamans on the 16th and 17th, while one or two stations in Lower Burma also had light falls. With the above exceptions weather was dry and settled over the whole Indian regions throughout the week.

Burma.—Skies were clear or only very lightly clouded until the close of the week, when the disturbance in the south-east of the Bay caused the appearance of cloud over the greater part of the province, and gave light falls of rain at Rangoon and Toungoo. The increase of cloud produced a rapid rise in night temperature, which was in moderate to large excess on the 16th and 17th, but before this change occurred, temperature was normal or in defect in Tenasserim, and in only slight excess elsewhere.

North-east India and Orissa.—In Assam the mornings were foggy throughout the week, but in other parts of the division skies were clear or only lightly clouded. During the first half of the week temperature was slightly above normal, but the low temperature conditions prevailing in the Central Provinces extended into north-east India on the 14th.

and during the remainder of the week temperature was in defect in the western districts of the division, especially in Orissa.

The United Provinces, Central India and the Central Provinces.—Cloud did not disappear entirely from the division after the disturbed weather of the previous week till the 13th, and the rain given by the disturbance was the cause of lower temperature than usual up to the 17th, more particularly in Central India and the Central Provinces, where the defect in the maximum averaged 6° on the 11th and again on the 15th.

North-west India.—Skies were thickly clouded in Kashmir during the greater part of the week, and snow was reported from Sonemarg, Dras and Minimarg on the 15th and a few very light falls on the following day. In the plains of north-west India there has been very little cloud, and in Baluchistan skies have been clear, except on the 13th. Mean temperature was slightly below normal in the eastern districts of the division and did not differ much from normal in other parts of the plains, but in Baluchistan and at most stations in Kashmir it was persistently in excess.

The Peninsula.—Skies were cloudy in the south-eastern districts throughout the week, but in the remainder of the Peninsula skies cleared on the 14th, and night temperature, which up to that time had been in general excess, fell, and during the remaining days was normal or in defect.

The rainfall of the period, from the 30th November to the 17th January, was normal or in excess in the Punjab, the Frontier Province and Rajputana, and in excess over the greater part of the Peninsula. The excess represented as a percentage of the normal was largest in the Deccan and Mysore.

The following summarises the chief rainfall amounts of the week, as reported at 8 h., each day :

January 12th, Coimbatore 0·50".

" 15th, Sonemarg 0·72".

" 16th, Port Blair 1·68".

" 17th, Port Blair 2·04" and Slipper Island 1·34".

The 17th January 1907.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Season and Crop Prospects for the week ending Saturday
12th January 1907.**

Burma.—Reaping of wet weather paddy is nearly completed in both Lower and Upper Burma. Threshing and winnowing are in progress. Miscellaneous standing crops in Upper Burma are generally in good condition. Cultivation of dry weather paddy is in progress in Katha, Lower Chindwin, and Kyaukse. The price of paddy has fallen largely in Amherst; changes elsewhere are unimportant.

Eastern Bengal and Assam.—The weather is seasonable. There was no rain during the week. Rain is wanted in Cachar, the Naga Hills and Upper Assam. Pruning and hoeing of tea are in progress. Harvesting of winter rice and gathering of pulses are nearly finished. Preparation of land for early rice and jute has commenced. Plucking of cotton; pressing of sugarcane; gathering of mustard; and transplantation of summer rice are in progress. Prospects of cotton are unfavourable in the Garo Hills and the Khasi and Jaintia Hills; fair in Nowgong; and good in Sylhet. The prospects of winter rice and other standing crops are moderate. Prices of common rice:—Manipur 17; Kohima and Sibsagar 10; Malda 9½; Rangamati, Silchar, and Nowgong 9; Tezpur 8½; Barisal, Chittagong, Jalpaiguri, Gauhati, and Dibrugarh 8; Faridpur 7 to 8; Dinajpur 7½; Dacca and Bogra 7½; Mymensingh, Rampur Boalia, Pabna; and Sylhet 7½; Noakhali and Dhubri 7; Tura 6 to 7; Rangpur 6½; Shillong 6½; and Aijal 6 seers per rupee. Prices have risen in eight; fallen in five; and remain stationary in the remaining districts. Five hundred and nineteen persons received gratuitous relief in Sylhet.

Bengal.—Light rainfall is reported from Shahabad, Champaran, Sambalpur and Palamau. Harvesting of *aman* paddy is almost over. Pressing of sugarcane continues. Spring crops are doing well. Rain is needed for them in the Patna Division, and also in Monghyr and Bhagalpur. The number of persons receiving gratuitous relief is—Muzaffarpur 1,570 and Darbhanga 19,739. The number of persons on test and relief works in Darbhanga is 1,497 and 53,772, respectively. Fodder and water-supply are sufficient. The price of common rice has risen in eight and fallen in three districts.

United Provinces.—Rain has fallen in all districts except Lucknow, Sultanpur and Partabgarh; the heaviest falls being in the Himalayan western submontane and Upper Doab districts. The standing crops have benefited and are doing well. Weeding and sugarcane pressing are in progress. Slight damage from hail is reported in Bahraich; from rust in Barabanki; and from insects in Azamgarh. Markets are full. Fodder continues scarce in Sitapur and Rae Bareli and is deficient in Basti. Prices are stationary but show a tendency to fall.

The weekly report on the scarcity is as follows:—Twenty-five cents of rain fell in the Gorakhpur district during the week. The standing crops have been benefited. Supplies and fodder are sufficient. Agricultural stock is in good condition. Slight damage by rust is reported in parts of the Sadr tehsil. Prices are stationary. The numbers on relief are:—on works 208, on gratuitous relief 769, in poor houses 347, total 2,324.

Punjab.—Good to moderate rain has fallen in all districts except Shahpur, Mianwali, and Multan. There are slight fluctuations in the prices of food grains; wheat is rising in Shahpur and Rawalpindi and falling in Rohtak, Gurgaon, Sialkot, and Lyallpur. Cotton is still being picked in Lahore and Amritsar; and sugar-cane pressings continue in Jullundur, Amritsar and Sialkot. Sowings of barley are in progress in Sialkot; cutting of *toria* (*Brassica Campestris*) is going on in Lahore. The condition and prospects of the standing crops are generally good. The recent rain wherever received has benefited the standing crops. Crops on the Shahpur inundation canals are withering and more rain is badly wanted in Hissar. Locusts appeared in parts of Sialkot but did no damage; the locust hoppers now on wing in parts of Shahpur are being destroyed; the turnip crop has been damaged in parts of Multan by a disease called "hadda." Cattle are in good condition. Fodder is sufficient. There are no complaints regarding the water-supply.

North-West Frontier Province.—Rain fell in Hazara and Peshawar ranging from 17 cents. to 1·29 inches; there was no rain in other districts. The water-supply is sufficient. The standing spring crops are in good condition but oilseeds in Dera Ismail Khan are below average. Wheat and barley are still being sown on unirrigated areas. Pressing of

sugarcane continues; the outturn is excellent. Fodder is sufficient. Prices are slightly falling. Prices:—Wheat 15 to 19½; maize 15 to 29; gram 17½ to 22; and bajra 18½ to 22½ seers per rupee.

Jammu.—No rain. Prices are fluctuating. Prices:—Wheat 11 to 24 and maize 12 to 36 seers per rupee. The condition of the standing crops is good. Fodder is sufficient except in the Kishtwar tehsil where it is reported to be scarce.

Kashmir.—The weather was partially bright and cloudy with slight rain. Prices are almost stationary.

Rajputana.—There were showers during the week in Tonk, Kotah, Jhallawar, Jaipur, Kishangarh, Alwar, Karauli, Bharatpur, Dholpur, Ajmer, and Merwara; the maximum fall was 70 cents in Alwar. Agricultural operations are satisfactory and prospects are generally satisfactory. Pasturage and fodder is sufficient. Prices are rising in Hill Tracts and are nearly steady elsewhere, though still high in places.

Central India.—There were slight showers during the week in Bhopal, Malwa, and Dhar and Barwani in Bhopawar. Autumn harvesting, ploughing for and sowing of spring crops, and picking of cotton are in progress. The standing crops and the probable outturn are good. Crops have been slightly damaged by hail in part of Khilchipur in the Bhopal Agency. Pasturage is good. Prices are high in Baghelkhand and Malwa and stationary elsewhere. Irrigation and weeding of opium are in progress.

Central Provinces.—Rain was received in fourteen districts during the week ranging from 6 cents in Amraoti to 46 cents in Betul, where it also hailed. These showers have greatly benefited the spring crops, but have damaged linseed slightly in Drug. Picking of cotton and threshing and winnowing of autumn crops still continue. Cloudy weather and insects have injured tur and gram a little in Chanda; tur in Bhandara, and gram in Raipur. Prospects are generally favourable and fodder and water are sufficient. The price of gram has risen slightly in Damoh, Jubulpore, Seoni, Hoshangabad, and Wardha and that of rice has fallen in Chanda and Drug; wheat has become slightly cheaper in Nagpur, Drug, and Raipur and dearer in Saugor and Chanda; the price of juar has dropped from 20 to 22 seers per rupee in Nimar and risen by 1½ seers in Wardha; elsewhere prices are steady but still exceed the scarcity level in Wardha and Bilaspur.

Native States:—Rainfall measured (in cents):—Chuikhadan 56; Rajnandgaon 53; Khairagarh 45; Kawardha 40; Kankar 14; and Sakti 4. Sugarcane pressing; picking of cotton; and threshing of rice and kodon are in progress. Prospects are good. Fodder and water are ample. Prices are:—wheat 12 to 20; rice 13 to 17; and kodon 18 to 23 seers per rupee.

Bombay.—There was rain during the week in parts of Sukkur, Ratnagiri, Kanara, East Khandesh, Ahmednagar, the Karnatak and Palanpur. There has been slight damage to the standing crops by locusts in parts of Karachi and Hyderabad; by insects in parts of Hyderabad, Thar and Parkar, and Broach; crops are withering in parts of the Deccan and Bijapur; and are generally in good condition elsewhere. Threshing of autumn crops is in progress. Cotton picking continues in Hyderabad, Thar and Parkar, Ahmedabad, Panch Mahals, Broach, Ahmednagar, Poona, Kathiawar and Cutch. The supply of drinking water is generally sufficient and water for irrigation purposes is adequate except in parts of Nasik, Ahmednagar, Poona and Sholapur. Agricultural stock is sufficient except in Ahmednagar, Sholapur, Bijapur and Cutch. The fodder supply is sufficient. The quantity of food grains purchaseable per rupee is in the Deccan 10 per cent. above normal to 28 per cent. less than normal and elsewhere normal to 30 per cent. below.

Hyderabad.—Rainfall:—Five cents. The early rice harvest is nearing completion. Late rice sowings continue in parts of a few taluks. Spring crops are in fair to good condition generally. Prices:—Wheat 7½; coarse rice 7½; and jowar 16 seers per rupee.

Mysore.—Prices are generally steady. The standing crops are in good condition and are being generally harvested. Prospects of the season are good. Cattle are healthy, Water and fodder are available.

Coorg.—Rainfall 42 cents. Picking of coffee and reaping of rice continue. Prices of food grains are falling. Water and fodder are sufficient.

Madras.—Rainfall fair in Tinnevelly and Madura; light in Coimbatore, Nilgiris, Tanjore, Malabar, South Canara, Kurnool, Nellore and Chingleput; but no rain elsewhere. Irrigation supplies are sufficient except in parts of Kistna, Bellary, Anantapur, Salem and Madura. Ploughing, sowing, weeding, and transplanting are in progress in parts. The standing crops are generally fair but some in parts of Godavari, Kistna, Guntur and

Kurnool, have been damaged by the recent rains and some in parts of Madura are withering. Harvests continue with outturn poor to normal and bumper. Pasture is sufficient except in parts of Kistna and Bellary. Fodder is scanty in parts of Kistna, Salem, Tanjore and Madura. The condition of cattle is generally good. The price of rice is stationary in six districts; has fallen in twelve; and has slightly risen in five. The prices of millets have fluctuated as follows:—*Ragi* is stationary in nine districts; has fallen in five; and has slightly risen in seven. *Cholam* is stationary in four districts; has fallen in three; and has slightly risen in seven. *Cumbu* is stationary in four districts; has fallen in seven; and has slightly risen in four.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table:—

ADMINISTRATION REPORT OF THE INDO-EUROPEAN TELEGRAPH
DEPARTMENT FOR 1905-06.

Nos. 509-514-18, dated Calcutta, the 16th January 1907.

RESOLUTION.

READ—

The Administration Report of the Indo-European Telegraph Department for the year 1905-06.

ORDERED.—That copies of the report be forwarded to the Home, Finance, and Public Works Departments, the Government of Bombay, and the Director General of Telegraphs, for information.

Ordered, also, that the report be published in the Supplement to the Gazette of India.

W. L. HARVEY,
Secretary to the Government of India.

ADMINISTRATION REPORT
OF THE
INDO-EUROPEAN TELEGRAPH DEPARTMENT
FOR
1905-1906.

Capital and Revenue Account.

1. Capital.—The net outlay during 1905-06 under Capital was Rs. 3,90,784, which raised the expenditure on Capital account to the end of the year to Rs. 1,43,62,362. On the construction of the Central Persia line a sum of Rs. 21,991 was expended during the year, of which amount Rs. 17,204 was on account of cash, and Rs. 4,787 on account of stores expenditure. This Account has also been debited during the year with Rs. 2,63,069, on account of the Indian extension of the Central Persia telegraph line, of which Rs. 84,453 was for cash and Rs. 2,28,616 for Stores. A sum of Rs. 433 also remains at debit of this account on account of the Benjam Bunder

Abbas telegraph line, being the amount spent after the submission of the bill for recovering the cost of the line from the Persian Government.

In the Persian Gulf Section Rs. 23,031 has been expended on the construction of buildings, the cost during the year for constructing the Henjam building was Rs. 18,129, and for additions to the Indo-European telegraph buildings at Karachi was Rs. 4,902. The cost of constructing buildings in the Persian section during the year was Rs. 2,006, of which Rs. 999 was for an addition to Teheran Dispensary, the balance being expended on other petty works in this section. The balance under Capital represents an increase of Rs. 80,254 under Suspense Heads, which includes a sum of Rs. 58,460 held under advance, being the amount recoverable from the Persian Government on account of erecting the Henjam Bunder Abbas line.

The following statement shows how the above increase is made up :—

	—	Increase.	Decrease.	Total.
		Rs.	Rs.	Rs.
Works		3,10,530	...	3,10,530
Suspense—				
Stores		22,244	...	22,244
Other heads		58,010	...	58,010
Total		3,90,784	...	3,90,784

A summary of the year's transactions on Capital account is given in Appendix A.

2. *Revenue.*—A summary of the earnings and expenditure* for the year 1905-06 will be found in Appendix B. The earnings of the year were Rs. 16,68,282, or a decrease of Rs. 27,371 on those for 1904-05, viz., Rs. 16,93,603. The expenditure during the year was Rs. 8,91,864, as compared with Rs. 10,77,679 during 1904-05, or a decrease of Rs. 1,85,815. The net result is a profit of Rs. 7,74,368 for the year, as compared with the profit of Rs. 6,15,924 in 1904-05.

3. The following statements show the chief differences between the earnings and expenditure of the current and previous years, details being found in Appendix B :—

Earnings.

Head of Account.	1904-05.	1905-06.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Traffic Earnings	11,75,903	10,03,004	...	1,72,899
Common Purse	6,19,815	7,73,489	1,53,674	...
Australasian Message Fund	—1,95,053	—1,96,051	...	998
Profit and Loss	80	—1,194	...	1,224
Total Message Revenue :	16,70,895	16,49,243	1,53,674	1,75,121
Miscellaneous Revenue	22,908	16,981	...	5,924
Total	16,93,603	16,66,232	1,53,674	1,81,045
Net Decrease	27,371

* Excluding the cost of the London Office Establishment (2,108/-), which is included as part of the establishment of the Secretary of State.

Expenditure.

Head of Account.	1904-05.	1905-06.	Increase.	Decrease.
Persian Gulf Section :—				
General charges . . .	Rs. 1,25,014	Rs. 1,17,834	... 10,958	Rs. 7,680
Line maintenance . . .	46,848	57,848	... 4,445	...
Signalling . . .	2,11,649	2,16,094	... 4,445	...
Cable maintenance . . .	2,95,100	1,47,236	... 1,47,864	
Persian Section :—				
General charges . . .	1,20,451	1,22,180	1,729	...
Line maintenance . . .	1,46,822	1,04,943	... 41,879	
Signalling . . .	1,24,062	1,19,088	... 4,974	
Expenditure by other Departments	7,693	7,143	... 550	
Total . . .	10,77,679	8,91,864	17,182	2,02,947
Net Decrease	1,85,815

Under the Persian Gulf Section the large decrease under Cable Maintenance is principally due to less expenditure during the year of Rs. 94,157, and Rs. 35,121 under Repairs to Cables and to the Cable Steamer respectively. The short charge under General Charges is principally due to charges in Europe being less as compared with last year's figures. The excess of Rs. 10,958 under Line Maintenance is due to increase of Establishment under Line Conservancy and increased expenditure under Repairs and Renewals of Lines. The increase under Signalling is mainly due to annual increases of pay to Signalling Establishment.

In the Persian Section the net decrease of Rs. 45,124 is mainly due to charges under Repairs and Renewals of Lines, being less in comparison with the actuals of 1904-05.

Net Revenue.

4. On a total Capital expenditure of Rs. 1,43,62,362 a net profit of Rs. 7,74,368 was earned during the year, which gives a dividend of 5.391 per cent. (Appendix D). The dividends earned during the past five years are as follows :—

	Year.	Interest on Capital.
		Rs.
1901-02	7.89
1902-03	4.50
1903-04	4.97
1904-05	4.408
1905-06	5.391

Cis-Indian Joint Purse.

5. Appendix C deals with the transactions in connection with this Agreement, which was entered into in 1878.

2 r. d.

The Department's share of the whole Purse after certain adjustments shows a decrease of 1,637 0 0

Which is explained as follows—

Decrease on Indian traffic	8,287	
Less Department's share of Indian Guarantees	8,908	
		4,379 0 0
Increase on Trans-Indian traffic		2,742 0 0
		1,637 0 0

The above decrease is mainly due to a reduction in the rate between Europe and India from 2s. 6d. to 2s. a word from 1st August 1905, and also to the fact that, from the same date, British, Colonial, or Indian Government messages exchanged between Europe and India or the Far East were carried at half rates.

The payments by the Government of India on account of the Indian Guarantee from 1st March 1902 to 31st March 1906 are shown in Appendix C (I).

6. *Interruptions affecting Joint Purse Traffic.*—There were no interruptions stopping traffic between Karachi and Teheran. Between Teheran and London the Indo-European Company's lines were totally interrupted for an aggregate of 21 days 8 hours and 53 minutes. This was mainly due to revolutionary disturbances in Russia.

7. On the Turkish route interruptions occurred between Fao and Constantinople lasting 41 days 4 hours 5 minutes. The working of this route continues to be unsatisfactory. The Fao-Bushire cable was interrupted for 22 hours 5 minutes during the year.

During the last five years the Turkish route west of Fao has been interrupted as follows :—

1901-1902.			1902-1903.			1903-1904.			1904-1905.			1905-1906.		
Days.	H.	M.												
40	8	40	42	9	37	23	11	50	65	1	55	41	4	15

The Department was liable to the Joint Purse for 22 days' interruptions between Constantinople and Fao at Fos. 50 per diem.

Australasian Message Fund.

8. The Departmental receipts for this year show a decrease of 210% on the receipts in 1889, on which the original Australasian Message Fund was based. See Appendix C (2).

Traffic.

9. The following table gives the amounts paid into the Joint Purse by the Department as compared with its independent traffic revenue* :—

	For Joint Purse, ds.		Independent Revenue,	Total,
	India.	Trans-India.		
Persian Gulf Section	Fos. ota. 1,315,119.46 $\frac{1}{2}$	Fos. ota. 125,233.39	Fos. ota. 43,262.11118	Fos. ota. 1,483,614.96743
Persian Section	172,981.79 $\frac{1}{2}$	16,729.5815 $\frac{1}{2}$	19,008.00226 $\frac{1}{2}$	208,719.8742 $\frac{1}{2}$
Total francs	1,489,101.25 $\frac{1}{2}$	141,962.9715 $\frac{1}{2}$	62,270.11344 $\frac{1}{2}$	1,692,334.84164 $\frac{1}{2}$

10. Appendix E gives the number of messages and words carried under the different classes :—1, State; 2, Commercial and Private; 3, Press, during the past five years.

11. The average length of "private and commercial" messages was 11.21 words in 1905-1906 as compared with 11.49 words in the previous year. The average length, calculated from the averages of the past seven years, is 12.38 words.

12. *Check of Errors.*—The accuracy of transmission over the lines of the Department for the past two years is shown below, and is satisfactory. The percentage of errors against words examined was as follows :—

For 1904-1905	:	:	:	:	:	0.126 per cent.
" 1905-1906	:	:	:	:	:	0.070 "

* The independent traffic revenue is that obtained from traffic not touching India, such as for telegrams between the stations of Jask and Bushire.

13. Complaints and Errors.—The number received for investigation amounted to 203, being 20 more than the total for the year 1904-1905. Of this number 115 were from Europe and 88 from India; 54 related to messages via Turkey.

Of the above, 86 were not admitted by the Administrations concerned; or are still being investigated by them, and of the remaining 117 this Department is responsible for 18.

Offices.

14. The number of offices open to the public throughout the year, excluding those on the Teheran-Meshed (Persian Government) line, was in the Persian Gulf Section 11 and in the Persian Section 15, including 7 offices on the Central Persia line.

PERSIAN GULF SECTION.

Cables.

15. The total length of the various cables on 31st March 1906 was 1950·799 knots, as against 1950·757 knots in the former year, the increase being due to repairs and diversion of Karachi Harbour cables.

Three faults occurred during the year, and two continued into this from the previous year, making a total of five faults. Two were due to teredo, one to corrosion of guards, and one to manufacture. The other remains for further development before removal.

There were two interruptions on the Bushire-Manora cables, aggregating 2 days 2 hours 59 minutes, but as an alternative cable or the Mekran Coast land line was available, through communication was not interrupted. The Fao-Bushire cable was interrupted for 22 hours and 5 minutes.

The expenditure of cable for repairs and renewals amounted to 18·839 knots, the lengths recovered at sea being 15·841 knots, which were only fit for stripping for core.

Manora Cable Factory.

16. The expenditure of cable during the year and cable in stock at the end of the year was as follows:—

	Knots.
Cable in stock on 1st April 1905	61·396
Manufactured at Manora	31·475
Recovered at sea for Harbour work	7·586
Excess brought into stock	0·081
	<hr/>
	100·498
Deduct cable expended, 1905-1906	31·638
Henjam Bunder Abbas line	15·172
Sold to Submarine Defences	0·081
	<hr/>
	48·871
Balance 31st March 1906	<hr/> <hr/> 53·827

The amount of cable stripped for core was 24·918 knots.

17. In October 1905 cables, 15 knots in length, were laid between Henjam and Bunder Abbas. In connection with these cables a land line was also erected in Kishm (30·75 miles) with cable houses and office buildings, but, pending the settlement of certain questions with the Persian Government, the line has not been opened for traffic.

Cable Steamer "Patrick Stewart."

18. The cable steamer "Patrick Stewart" steamed 4,650 knots, and the engineering staff either wholly or in part was absent from headquarters on cabling work for 61 days during the year. The actual earnings of the ship were Rs. 5,604-0-6.

MEKRAN COAST LAND LINE.

19. The total lengths on the 31st March 1906 were the same as last year, viz., 697·96 miles of line and 1,893·42 miles of wire.

The total interruptions (i.e., simultaneous interruption to both wires) during the year lasted for 54 hours 40 minutes. Partial interruptions (i.e., those not affecting communication) amounted to 215 hours.

The causes of the faults are summarised as follows:—

	Number	Duration, Hour.
Definitely traced to preventable causes:—		
Corroded wires	6	136
Unpreventable causes:—		
Cyclones and floods	3	59
Malice	2	20

General Remarks.

Nothing of particular interest occurred during the year; the districts along the line remained quiet and the people friendly.

PERSIAN SECTION.

Teheran-Bushire Line.

20. The faults from all causes, including contacts between the wires during the past three years, have been—

	Year.	1 Wire.		2 Wires.		3 Wires.	
		Hours.		Hours.		Hours.	
	1903-1904	123		4		Nil.	
	1904-1905	298		43		16	
	1905-1906	135		15		Nil.	

The causes of the faults may be summarised as follows:—

Teheran-Bushire Section. Central Persia Section.			
Number.	Duration. Hours.	Number.	Duration. Hours.
Definitely traced to preventable causes:—			
Faulty maintenance	1	3	...
" construction	1
Unpreventable causes:—			34
Cyclones and exceptional storms	2	31	...
Animals, birds, and dead snakes	4	39	...
Malice	10	78	...
Other unpreventable causes	1	4	...

21. *Wilful damage.*—398 acts of wilful damage were reported during the year on the Teheran-Bushire Section, being 138 less than last year. They were distributed along the line as follows:—

Sub-section.	Locality.	No. of Miles.	No. of acts, 1905-1906.	No. of acts, 1904-1905.
1st	Teheran to Ardistan	221	95	108
2nd	Ardistan to Abadch	199	54	66
3rd	Abadch to Siraz	157	144	245
4th	Siraz to Bushire	156	104	119

CENTRAL PERSIA LINE.

5th	Ardistan to Anar	256	30	196
6th	Anar to Bam	244	90	
7th	Bam to Indian Frontier	211	7	

The amount claimed from the Persian Government for damages on the Teheran-Bushire Section was Krans 7,051.* Of this sum Krans 4,710 were collected locally; the balance, Krans 2,341, has been deducted from the Jask Royalty.

* 6 Krans = 1 Rupee approximately.

SUPPLEMENT TO THE GAZETTE OF INDIA, JANUARY 19, 1907.

General Remarks.

22. There is nothing of particular interest to report during the year under review.

TEHERAN-MASHED LINE.

23. This line is the property of the Persian Government, but maintained by the Indo-European Telegraph Department. It is 568 miles in length. It worked satisfactorily during the year and was interrupted only for 141 hours.

No events of a political nature affected this line during the year.

CENTRAL PERSIA LINE.

24. The line from Kashan to the Eastern frontier of Persia, which was commenced on the 2nd December 1902, has been completed through Yezd, Anar, Kerman, and Bam, to a point 25 miles beyond Bam, and 596 miles distant from Kashan. Beyond this a single wire line has been constructed to form a connection with the Indian line from Quetta to Robat. It was completed on 9th May 1904 and is 211 miles long.

The construction of a line from Karachi to Panjgur was commenced on 14th September 1905, and 170 miles had been completed at the end of the year. This line will be continued to meet the Central Persia line at a point near Robat.

INDO-EUROPEAN TELEGRAPH DEPARTMENT.

Stores.

25. The principal items of expenditure under this head have been as follows:—

	Rs.
Stores purchased in India London stores, including freight, landing charges and ex- change.	12,668 8,54,297
Stores from other Departments	5,566

The following were the principal issues of stores including adjustments to the end of March 1906:—

	Rs.
For repairs to cable	54,956
For cable steamer	11,312
For Henjam Bunder Abbas line	18,161
For Karachi Panjgur line	2,28,616

The issues to repairs and renewals of land line and offices in the Persian Gulf Section amounted to Rs. 21,847, and in the Persian Section to Rs. 12,924.

H. A. KIRK,

Director-in-Chief.

INDIA OFFICE,

8th November 1906.

APPENDICES.

SUPPLEMENT TO The Gazette of India.

No. 4.} CALCUTTA. SATURDAY, JANUARY 26, 1907.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall Summary for the seven days ending at 8 h., on Thursday, the 24th January 1907, based on the Indian Daily Weather Reports of the period.

Pressure was falling in Persia on the 18th and the fall extended into north-west India the next day, making pressure slightly below normal in Sind and the Frontier Province. On the 21st there was another fall of the barometer in north-west India, and pressure continued to decrease throughout the remainder of the week with the result that on the 24th a depression, within which pressure was nearly a quarter of an inch in defect, was lying over Sind, north-west Rajputana and the southwest Punjab, and pressure gradients over northern India were completely reversed, allowing an inflow of winds from the Bay of Bengal into north-east India, and from the Arabian Sea into Rajputana, while easterly winds were blowing up the Gangetic plain. The precipitation given by these abnormal conditions was, however, very scanty, and on the 24th was confined to light falls of rain in Assam and light snow and rain in Kashmir and the Punjab hills. Weather was, however, disturbed in Kashmir for the greater part of the week, as snow commenced falling there on the 20th, but there has been no precipitation in Baluchistan or the plains of north-west India. Weather was dry throughout the week in other parts of the Indian region, except for light rain in Burma on the 18th and 19th.

Burma.—The disturbance which was affecting the weather in the south-west of the Bay at the close of the previous week moved northwards, and gave rain over the greater part of Burma on the 18th and 19th. Skies then cleared, and dry weather prevailed in the province for the remainder of the week. The rain caused a rapid fall of day temperature, which was very largely below normal on the 18th and 19th, while the thick cloud produced unusually high temperature by night. With the cessation of rainfall and

the disappearance of cloud these abnormal conditions soon passed away, and temperature was again nearly normal on the 22nd and continued so for the rest of the week.

North-east India and Orissa.—There was very little cloud up to the 24th, when rain occurred in Assam. Temperature was normal, except in Orissa where it was in defect, but a rapid rise took place with the change of conditions at the end of the week, and on the 24th both maximum and minimum temperatures were in general excess.

The United Provinces, Central India and the Central Provinces.—Skies were almost clear up to the 21st when cloud appeared in the north-west of the United Provinces, and during the next three days spread over the whole of that area and the east of Central India. Temperature was in defect over the greater part of the division during the first three days of the week, but it then rose, and by the 24th mean temperature was in excess everywhere.

North-west India.—The barometer fell rapidly in Kashmir on the 19th, and from the 20th to the end of the week snow fell every day in that region. No precipitation occurred elsewhere, except in the Punjab hills. Skies were cloudy in Kashmir, the Frontier Province and the Punjab throughout the week, and on the 21st cloud appeared in Baluchistan, and on the 22nd in Rajputana and Gujarat. A noteworthy feature in the meteorological conditions was the unusually high temperature which prevailed over practically the whole division, especially in Baluchistan, where on the 21st it averaged 18° above normal.

The Peninsula.—The only rain reported was a light fall of 0.9" at Pamban on the 22nd. Skies were clear, except for light cloud in the south, and temperature was nearly normal.

The rainfall of the period, from the 30th November to the 24th January, was normal or in excess in the interior of Burma, in excess in practically the whole of the Peninsula, and normal in the North-west Dry Area and the sub-divisions of Lahore, Ludhiana and Raipur.

The following summarises the chief rainfall amounts of the week, as reported at 8h., each day:

January 18th, Slipper Island 0.71", Toungoo 0.45", Yamethin 0.63", Minbu 0.39" and Shillong 0.54".
" 19th, Toungoo 1.02", Thayetmyo 0.79" and Lashio 0.66".
" 20th, Minimarg 0.27".
" 21st, Mergui 1.30" and Minimarg 0.30".
" 22nd, Sonemarg 0.59", Minimarg 0.64" and Dras 0.36".
" 23rd, Cherat 1.32", Murree 0.22", Minimarg 0.92" and Leh 0.18".
" 24th, Silchar 0.63" and Tezpur 0.32".

J. PATTERSON,
for Director General of Observatories.

E. D. MACLAGAN,
Offl. Secretary to the Government of India.

SIMLA;
The 24th January 1907.

GOVERNMENT OF INDIA,
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
19th January 1907.

Burma.—Reaping of wet weather paddy is nearly finished and threshing and winnowing are in progress and have been generally completed in Tharrawaddy. Rain fell in several districts in both Upper and Lower Burma during the week, the amounts in some cases being considerable. No damage to the paddy crop has been reported. Miscellaneous crops in Upper Burma are generally in good condition. The price of paddy has risen considerably in Akyab and Amherst and slightly in Tavoy and Mandalay; it has fallen considerably in Prome and Thayetmyo.

Eastern Bengal and Assam.—The weather is seasonable. There was no rain except in the Khasi and Jaintia Hills. Rain is wanted in Cachar, the Naga Hills, Upper Assam and Manipur. Pruning and hoeing of tea are in progress. Harvesting of winter rice and gathering of pulses are nearly finished. Preparation of land for early rice and jute are in progress. Plucking of cotton; pressing of sugarcane; gathering of mustard and transplantation of summer rice are in progress. Prospects of cotton are unfavourable in the Garo Hills and the Khasi and Jaintia Hills and fair in Nowgong. The prospects of winter rice and other standing crops are moderate. Prices of common rice:—Manipur 16; Kohima 10; Rangamati 9½; Silchar 9 to 9½; Nowgong and Sibsagar 9; Barisal, Chittagong, Gauhati, Tezpur, and Dibrugarh 8; Faridpur 7 to 8; Dinajpur 7½; Dacca and Malda 7½; Bogra 7½; Jalpaiguri and Sylhet 7½; Pabna and Mymensingh 7½; Noakhali, Rampur Boalia and Dhubri 7; Tura 6 to 7; Rangpur 6½; Shillong and Aijal 6 seers per rupee. Prices have risen in eight; fallen in seven; and remain stationary in the remaining districts. Six hundred and seventy-three persons received gratuitous relief in Sylhet.

Bengal.—Except in Darjeeling where the fall amounted to 0·12 inches, no rain fell during the week. Harvesting of winter paddy has been completed in almost all districts. Pressing of sugarcane continues. Rain is required yet for spring crops in Nadia, Murshidabad, Jessor, Gaya, Champaran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur and Purnea. Prospects of spring crops are on the whole satisfactory. The number of persons receiving gratuitous relief is—Muzaffarpur 801 and Darbhanga 17,441. The number of persons on test and famine relief works in Darbhanga is 1,891 and 58,114, respectively. Fodder and water are sufficient. The price of common rice has risen in six and fallen in five districts.

United Provinces.—No rain fell during the week. Crops are in good condition. Irrigation is in progress where practicable and weeding continues. Fields are being prepared for sugarcane and sowing of extra crops. The condition of cattle is good, except in Garhwal and Almora. Supplies are adequate. Fodder continues scarce in Rae-Bareli and is dear in Hardoi and Sitapur. Prices are stationary with tendency to fall in places.

The weekly report on the scarcity is as follows:—No rain fell in Gorakhpur during the week. Sugarcane pressing is in progress. Rust has done damage in parts of the Sadr tahsil. Supplies and fodder are sufficient. The condition of cattle is satisfactory. Prices are stationary. The numbers on relief are:—on works 224, on gratuitous relief 1,990, in poor houses 358, total 2,572.

Punjab.—Good rainfall was received during the week in tehsil Kasauli, in Ambala and in parts of the Lahore district. The price of wheat is rising in Sialkot and falling in Shahpur, Rawalpindi and Lyallpur; prices of other food grains are slightly fluctuating. Sugarcane pressing continues in Rohtak, Jullundur, Amritsar and Sialkot. Ploughings and sowings of extra spring crops have commenced in Lahore, Sialkot, and Gurgaon. The condition and prospects of the standing crops are generally good. Rain is badly wanted in Rohtak, Ambala and Shahpur. Locusts appeared in parts of Rohtak, Shahpur, Lyallpur and Multan and damaged the crops slightly except in Rohtak. The turnip crop has also been damaged by a disease known as "hadda" in parts of Multan. Cattle are in good condition. Fodder is sufficient. There are no complaints regarding the water supply.

North-West Frontier Province.—No rain. Spring sowings are completed. The condition of the standing crops on irrigated and unirrigated areas is good so far, but rain is now generally wanted. Locusts have slightly damaged the crops in parts of the Dera Ismail Khan district. Pressing of sugarcane goes on, the outturn is good. The water supply is ample. Fodder is procurable. Cattle are in good condition except in a few villages of the Mardan tehsil in the Peshawar district. Prices show a downward tendency. Prices:—wheat 16 to 19½; gram 17 ½ to 22; maize 17½ to 29½, and bajra 20 to 22 seers per rupee.

Jammu.—There was slight rain during the week at Udhampur, Rampur, and Jammu. Prices are stationary. Prices :—Wheat 11 to 24 and maize 12 to 36 seers per rupee. The condition of the standing crops is good. Fodder is sufficient except in the Kishtwar tehsil where it is scarce.

Kashmir.—The weather was partially bright and cloudy with slight rain during the week. Prices are almost stationary.

Rajputana.—There were showers during the week in Jaipur, Bikanir, Kotah, and Jhalawar ; the maximum fall varied from eleven to eighty-five cents in the Nazamaths of Kotah and Jhalawar. Agricultural operations are satisfactory and prospects are generally satisfactory. Pasturage and fodder are sufficient. Prices are nearly steady throughout though still high in places.

Central India.—There were slight showers during the week in Gwalior. Autumn harvesting is completed in Gwalior and continues elsewhere. Weeding and irrigation of spring crops and picking of cotton are in progress. The standing crops and probable outturn are good. Crops have been slightly damaged in parts of the Bhopal and Baghelkhand Agencies. Agricultural stock and pasturage are good except in parts of Bhopawar and Indore. Prices are high in Baghelkhand and Malwa and are stationary elsewhere. Irrigation and weeding of opium are in progress.

Central Provinces.—The weather is clear and cool. Picking of cotton and threshing and winnowing of autumn crops are completed in most districts and reaping of linseed and *til* has commenced in parts of Wardha. *Tur* and *ringni juar* in Chanda ; linseed, gram and *tur* in Bhandara ; and linseed and gram in Raipur have been damaged slightly by insects. Rats have attacked wheat in three taluqs of Buldana. More rain is required in parts of the Hatta tehsil of Damoh. The standing crops are generally in good condition and prospects are favourable. Fodder and water are sufficient. Prices of food grains fell in Saugor and rose slightly in Jubulpore ; rice has become cheaper by one seer per rupee in Mandla ; *juar* rose in Amracti and fell in Buldana by one seer : elsewhere prices are generally steady but still exceed the scarcity level in Wardha and Bilaspur.

Native States.—The harvesting of autumn crops and sugarcane pressing still continue. Spring crops are in good condition and prospects are good. Fodder and water are sufficient. Prices :—Wheat 10 to 20 ; rice 12½ to 17 ; and *kodon* 16 to 23 seers per rupee.

Bombay.—The standing crops have been slightly damaged by insects in parts of Karachi and are withering in parts of the Deccan and Bijapur ; they are generally in good condition elsewhere. Threshing of autumn crops is in progress and cotton picking continues in Hyderabad, Thar and Parkar, Gujarat, Poona, Kathiawar and Cutch. The supply of drinking water is generally sufficient and water for irrigation purposes is adequate except in parts of Nasik, Poona and Sholapur. Agricultural stock is sufficient except in Sholapur, Bijapur, and Cutch. The fodder supply is sufficient. The quantity of food grains purchasable per rupee is in the Deccan 10 per cent. above normal to 31 per cent. less than normal, and elsewhere normal to 25 per cent. below.

Hyderabad.—No rain. The early rice harvest is almost over ; late rice sowings still continue in parts of a few talukas. Spring crops are generally in fair to good condition. Prices :—Wheat 7½ ; coarse rice 7½ ; and jowar 15½ seers per rupee.

Mysore.—Prices of food grains are generally steady. The standing crops are in good condition and are being generally harvested. Prospects of the season are good. Cattle are healthy and water and fodder are available.

Coorg.—Picking of coffee and reaping of rice continue. Prices of food grains are falling. Water and fodder are sufficient.

Madras.—Rainfall light in Tanjore, but none elsewhere. Irrigation supplies are sufficient except in parts of Kistna, Bellary, Anantapur, North Arcot, Salem, and Madura. Ploughing, sowing, weeding, and transplanting are in progress in parts. The standing crops are generally fair but some in parts of Madura are withering and some in parts of Kistna have been damaged by the recent rains. Harvests continue with outturn poor to normal and bumper. Pasture is sufficient except in parts of Godavari, Kistna, and Bellary. Fodder is scanty in parts of Kistna, Salem, Tanjore and Madura. The condition of cattle is generally good. The price of rice is stationary in eight districts ; has fallen in twelve ; and has slightly risen in three. The prices of millets have fluctuated as follows :—*Ragi* is stationary in eight districts ; has fallen in seven ; and has slightly risen in six. *Cholam* is stationary in three districts ; has fallen in five ; and has slightly risen in six. *Cumbu* is stationary in seven districts ; has fallen in three ; and has slightly risen in five.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table:—

ESTABLISHMENTS.

PROCEDURE TO BE FOLLOWED IN GRANTING LEAVE TO A MILITARY OFFICER WHO IS TEMPORARILY IN CIVIL EMPLOY.

Calcutta, the 24th January 1907.

RESOLUTION.

A QUESTION has recently arisen as to the conditions under which a military officer, who is temporarily in civil employ, should be granted leave when such leave would extend beyond the period for which his services have been lent to the civil department. Articles 605, 606 and 855—860 of the Civil Service Regulations have been held to cover cases of the nature under consideration; but as they do not clearly specify the procedure in every contingency, the Governor General in Council is pleased to prescribe the following rules for general information:—

- (a) In the case of a military officer who is lent to a civil department for the performance of a specific duty, his term of service under the civil authorities terminates on the completion of such duty, and any leave for which he may then apply will be granted by the military authorities with reference to his status as a military officer.
- (b) In the case of a military officer who is lent to a civil department for a fixed period, and who is desirous of taking leave prior to the termination of that period, leave will be granted, within the period for which his services have been lent to the civil department, with reference to the applicant's status as a civil officer, even though he does not return to his civil appointment on the expiry of his leave.
- (c) In the case of a military officer lent to a civil department for a fixed period, who applies before the expiry of the term of his civil employment for leave which will extend beyond the period of such term, the whole period of leave will be granted by the civil authorities, after consultation with the military authorities, the portion antecedent to the expiry of the term of civil employ being granted with reference to the officer's status as a temporary civil officer and the balance with reference to his status as a military officer. In such cases the officer's service under the civil department will be held to terminate not at the commencement of his leave, but on the completion of the period for which his services were originally lent to the civil department.

ORDER.—Ordered that a copy of this Resolution be forwarded to the local Governments and Administrations for information; that a copy be forwarded to the Departments of the Government of India (except the Legislative Department) for information and further necessary action; and that the Resolution be published in the Supplement to the *Gazette of India*.

H. H. RISLEY,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.SANITARY.
PLAQUE.

Calcutta, the 24th January 1907.

SUPPLEMENT TO
The Gazette of India.

No. 5.}

CALCUTTA, SATURDAY, FEBRUARY 2, 1907.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall Summary for the seven days ending at 8 h., on Thursday,
the 31st January 1907, based on the Indian Daily Weather
Reports of the period.**

During the past week snowfall occurred in Kashmir and rain in the Frontier Province and the hills and submontane districts of the Punjab and of the west of the United Provinces. This precipitation was due to two separate disturbances in north-west India, the first and more important of which appeared over the western desert on the 23rd and remained in practically the same position till it filled up on the 27th. It caused an inflow into north-west India of humid winds from the Arabian Sea, but precipitation occurred only in the Frontier Province and in the hill districts of Upper India—as far east as Muktesar. The barometer fell briskly in Baluchistan on the 27th and 28th, and on the 29th a small but well marked depression was shown over the south-west Punjab, in the central area of which pressure was a quarter of an inch in defect. The depression moved northward and had practically disappeared by the morning of the 31st, after giving snow in Kashmir and light to moderate rain in the Frontier Province and the hills and submontane districts of the Punjab. Pressure was low throughout the week in north-east India, favouring southerly winds at the head of the Bay, and rain occurred in Assam every day, except on the 29th, and on the 27th and 28th rainfall extended into the northern districts of Burma. Dry weather prevailed in other parts of India and Burma. Temperature conditions were abnormal in northern India, where both the maximum and minimum were in marked excess, especially in north-west India. A cold wave, however, made its appearance in Baluchistan on the 30th and extended over north-west India during the next twenty-four hours, bringing about a very rapid fall of temperature which on the 31st was at many stations more than 10° lower than it was the day before.

Burma.—Skies were clear, except in the northern districts, where light rain fell on the 27th and 28th. Maximum temperature was approximately normal and minimum was in excess.

North-east India and Orissa.—Rain fell in Assam on nearly every day of the week and skies were thickly clouded in that region, but were generally clear elsewhere. The rain caused a reduction in day temperature in Assam, but night temperature remained high, and in the remainder of the division temperature both by day and by night was considerably higher than usual.

The United Provinces, Central India and the Central Provinces.—No rain fell, except at Chakrata, Dehra Dun and Muktesar on the 26th, and skies have been clear on most days of the week. Weather was much warmer than usual, but on the 31st a cold wave advancing across north-west India caused a rapid fall in temperature in the western districts of the division.

North-west India.—Two depressions affected the weather in this division and occasioned precipitation in Kashmir, the Frontier Province and the hills and submontane districts of the Punjab, but weather was dry on the 27th and 28th—between the filling up of the first depression and the appearance of the second. Skies were clear, except in the area of rainfall. The abnormal temperature conditions prevailing in northern India were very marked in this division, and up to the 30th, when the cold wave appeared in Baluchistan and Sind, both the maximum and minimum were in very large excess. By the 31st, however, the cold wave had changed the excess into a defect over the whole of north-west India, and at Deesa the minimum recorded the preceding night was 16° below normal.

The Peninsula.—With the exception of light cloud in the south skies were clear throughout the week. Nights were cooler than usual in Madras.

The rainfall of the period, from the 30th November to the 31st January, was normal or in excess in the interior of Burma, in the Brahmaputra Valley, the sub-division of Narayanganj and nearly the whole of the Peninsula, and normal in the North-west Dry Area and the sub-divisions of Simla and Ludhiana. In other parts of the Indian region it was in defect.

The following summarises the chief rainfall amounts of the week, as reported at 8h., each day :

January 25th,	Cherra Poonjee 1.10",	Murree 1.97",	Sonemarg 2.34"	Peshawar 0.82."
"	26th, Dehra Dun 0.71",	Simla 0.84",	Sonemarg 4.24"	Minimarg 1.17".
"	27th, Bhamo 0.40",	Silchar 0.79"	Gauhati 0.65".	
"	28th, Bhamo 0.58",	Silchar 3.90"	Tezpur 1.16".	
"	30th, Murree 1.15",	Cherat 1.10"	Rawal Pindi 1.94".	
"	31st, Sibsagar 1.14".

J. PATTERSON,
for Director General of Observatories.

E. D. MACLAGAN,
Offl. Secretary to the Government of India.

SIMLA;
The 31st January 1907.

GOVERNMENT OF INDIA,
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Season and Crop Prospects for the week ending Saturday,
26th January 1907.**

Burma.—One-and-a-half inches of rain fell in Mergui and moderate rain in Bhamo and Myitkyina. Reaping of wet weather paddy is almost completed and threshing and winnowing are progressing generally. Sowing and transplanting of dry weather paddy are in progress. In Upper Burma districts the standing crops are in good condition except in the Arakan Hill tracts where caterpillars have attacked tobacco plants, in the Pakokku township where insects are attacking peas; and in the Northern Shan States where wheat plants have died for want of rain. The price of paddy has risen considerably in Akyab, Bassein, and Myaungmya and slightly in Prome, Toungoo and Thaton; it has fallen slightly in Pakokku and Mandalay, and considerably in Katha.

Eastern Bengal and Assam.—Moderate rain has fallen in the Surma Valley Districts, Darrang, and Nowgong, and slight rain in the hill districts of Upper Assam and in parts of the Chittagong Division and Mymensingh; elsewhere there was no rain. It is badly wanted in Faridpur, the Chittagong Hill tracts and Malda. Recent rain has benefited tea, mustard and other standing crops in the Surma Valley. Pruning and hoeing of tea are in progress. Harvesting of winter rice and gathering of pulses are nearly finished. Preparation of land for early rice and jute is in progress. Plucking of cotton; pressing of sugarcane; gathering of mustard; and transplantation of summer rice are in progress. The prospects of cotton are unfavourable in the Garo Hills and the Khasi and Jaintia Hills and are fair in Nowgong. The prospects of winter rice and other standing crops are moderate. Prices: common rice:—Manipur 15; Konima 10; Rangamati 9½; Silchar 9 to 9½; Chittagong and Nowgong 9; Barisal 8½; Dacca, Comilla, Jalpaiguri, Gauhati, Tezpur, and Dibrugarh 8; Mymensingh 7½; Bogra 7½; Dinajpur and Malda 7½; Faridpur 6½ to 7½; Pabna 7½; Noakhali, Sylhet, and Dhurbi 7; Tura 6 to 7; Rangpur 6½; and Shillong and Ajial 6 seers per rupee. Prices have risen in six; fallen in five; and have remained stationary in the remaining districts. Three hundred and seventeen persons received gratuitous relief in Sylhet.

Bengal.—Nominal showers are reported from Darjeeling and Muzaffarpur only. Pressing of sugarcane continues. Prospects of spring crops are on the whole fairly satisfactory, but rain is still needed for them in Nadia, Jessore, Gya, Champaran, Darbhanga, Monghyr, and Bhagalpur. The number of persons receiving gratuitous relief is—Muzaffarpur 553 and Darbhanga 17,578. Two test works have been opened in the Bettiah Sub-division in Champaran where the average attendance during the first 6 days up to and including the 22nd instant the latest day for which figures are available is 133; and the number of persons on test works in the Madhubani Sub-division of Darbhanga on the last day available is 2,270. The number on famine relief works in Darbhanga is 63,747. Fodder and water are generally sufficient. The price of common rice has risen in four and fallen in eight districts.

United Provinces.—Light rain fell during the week in five districts. Preparation of fields for sugarcane and sowing of extra crops continue. Harvesting of peas has commenced in parts. Irrigation and weeding are in progress. Agricultural stock is generally in good condition. Fodder is still scarce in Rai Bareli and dear in Hardoi and Sitapur. Markets are well supplied. Prices are falling in twelve districts.

The weekly report on the scarcity is as follows:—The week was rainless in Gorakhpur. Crops are in good condition generally. Supplies and fodder are sufficient. Agricultural stock is satisfactory and prices continue stationary. The numbers on relief are on works 358, on gratuitous relief 2,220, in poor-houses 363, total 2,941.

Punjab.—Light to moderate rain has fallen in parts of Ambala, Jullundur, Amritsar, Sialkot, Shahpur, Rawalpindi, and Mianwali districts. There are slight fluctuations in the prices of food grains. Wheat is rising in Jullundur, and falling in Rohtak, Amritsar, Rawalpindi, and Lyallpur. Sugarcane pressings continue in Rohtak, Jullundur and Amritsar. Ploughings and sowings of extra spring crops are in progress in Gurgaon, Lahore and Sialkot. The condition and prospects of the standing crops are generally good. Rain is badly wanted for unirrigated crops in Hissar and Rohtak. Hail fell in parts of Sialkot and Shahpur and slightly damaged the crops in the former district. Locusts have also damaged the crops to some extent in parts of Shahpur, Lyallpur and Multan; in parts of Multan turnips have been damaged by a disease called "Hadda." Cattle are in good condition. Fodder is sufficient. There are no complaints regarding the water supply.

North-West Frontier Province.—Rain varying from 11 cents in Bannu to 2 inches in Hazara fell all over the Province except in Dera Ismail Khan where it is needed for the standing crops. The standing crops are generally excellent and unusually forward for this season. Locusts appeared in Dera Ismail Khan and in the Marwat tahsil of Bannu district, in the former slight damage was done to crops. Pressing of sugarcane still continues and the outturn is good. The water supply and fodder are sufficient. Cattle are in good condition except in Dera Ismail Khan. Prices are slightly falling. Prices:—wheat 15½ to 19½; gram 17½ to 23; maize 20 to 30; and bajra 20 to 23½ seers per rupee.

Jammu.—Good rain at several tehsils. Prices are stationary. Prices:—wheat 11 to 26 and maize 12 to 36 seers per rupee. The condition of the standing crops is good. Fodder is sufficient except in the Kishtwar tehsil where it is scarce.

Kashmir.—There was rain on two days during the week. The weather is generally bright. Prices are almost stationary. Spring crops have suffered slightly for want of rain.

Rajputana.—Agricultural operations and prospects are generally satisfactory. Pasturage and fodder are sufficient. Prices are nearly steady throughout, though still high in places.

Central India.—No rain. Autumn harvesting and cotton picking continue. Irrigation of spring crops is in progress. The standing crops and the probable outturn are good. Agricultural stock and pasturage are good except in parts of Indore, Bhopal, Baghelkhand and Bhopawar Agencies. Prices are high in Baghelkhand and Malwa and stationary elsewhere. Irrigation and weeding of opium are in progress.

Central Provinces.—The weather continues clear. Threshing and winnowing of autumn crops and picking of cotton are approaching completion and harvesting of spring crops has commenced in parts of Hoshangabad, Wardha, Nagpur, and Chanda. Pressing of sugarcane continues in Betul. Prospects are generally very favourable and fodder and water are sufficient. Wheat has become slightly cheaper in Jubbulpore and Mandla and rice dearer in Jubbulpore and Chanda; wheat, gram and rice have become dearer by 2 seers per rupee in Chhindwara; juar by 3 seers in Nimar; and rice by 1½ seers in Chanda; elsewhere prices are steady or fluctuate slightly but still exceed the scarcity level in Wardha, Chanda and Bilaspur.

Native States.—Sugarcane pressing and threshing of rice and *kodon* (millet) are still in progress and reaping of linseed has started in Chhukbadan. The standing crops are in excellent condition in Sarangirh and good elsewhere. Prospects are good and fodder and water suffice everywhere. Prices:—wheat 12 to 18; rice 12 to 16, and *kodon* (millet) 16 to 21 seers per rupee.

Bombay.—Slight damage to the standing crops by insects has occurred in parts of Karachi; by locusts in parts of Karachi and Hyderabad; and by blight in parts of Dharwar; crops are also withering in parts of the Deccan and Bijapur and are generally in good condition elsewhere. Threshing of autumn crops is in progress; cotton picking continues in Hyderabad, Thar and Parkar, Gujarat, Poona, the Karnatak, Kathiawar, Cutch and Rewa Kantha. The supply of drinking water is generally sufficient and water for irrigation purposes is adequate except in parts of Nasik, Poona, and Sholapur. Agricultural stock is sufficient except in Ahmednagar, Sholapur, Bijapur, and Cutch. The fodder supply is sufficient. The quantity of food grains purchaseable per rupee is in the Deccan 10 per cent. above normal to 31 per cent. less than normal and elsewhere normal to 25 per cent. below.

Hyderabad.—No rain. Spring crops are generally in fair to good condition. The harvest has commenced in seven talukas. Late rice sowings continue in parts. The standing crops are fair. Prices:—wheat 7½; coarse rice 7½; and jowar 15½ seers per rupee.

Mysore.—Prices of food grains have slightly fallen in Kolar, Tumkur, and Hassan and are steady elsewhere. The standing crops are in good condition and are being harvested. The prospects of the season are good. Water and fodder are available.

Coorg.—Picking of coffee continues. Reaping of rice is completed and threshing has commenced. Prices of food grains are stationary. Water and fodder are sufficient.

Madras.—No rain. Irrigation supplies are sufficient except in parts of Bellary, Anantapur, South Arcot, North Arcot, Salem, and Madura. Ploughing, sowing, weeding, and transplanting are in progress in parts. The standing crops are generally fair but some

152 SUPPLEMENT TO THE GAZETTE OF INDIA, FEBRUARY 2, 1907.

in parts of Madura are withering. Harvests continue with outturn poor to normal and bumper. Pasture is sufficient except in parts of Godavari, Kistna, Bellary, and South Canara. Fodder is scanty in parts of Godavari, Kistna, South Arcot, Salem, Tanjore, and Madura. The condition of cattle is generally good. The price of rice is stationary in nine districts; has fallen in twelve; and has very slightly risen in two. The prices of millets have fluctuated as follows:—*ragi* is stationary in nine districts; has fallen in nine; and has slightly risen in three. *Cholam* is stationary in three districts; has fallen in four; and has slightly risen in seven. *Cumbu* is stationary in three districts; has fallen in six; and has slightly risen in six.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table:—

Name of Province.	PRECEDING WEEK. (REVISED FIGURES.)			PRESENT WEEK.			Increase or decrease.

No. R. Stat. $\frac{11}{28}$.

RAILWAY BOARD.

Calcutta, the 21st January 1907.

Progress in the introduction of, and results of working, the automatic vacuum brake on railways in India during the six months ended the 30th June 1906—Tables Nos. I and II.

Read again—

Government of India letter No. 62 R. Stat., dated the 19th October 1891.
 Government of India letter No. 424 R. Stat., dated the 21st October 1896.
 Government of India letter No. 225 R. Stat., dated the 19th June 1903.

ORDER.—Ordered that tables Nos. I and II be forwarded, for information,

The Governments of Madras, Bombay, Bengal, the United Provinces of Agra and Oudh, the Punjab, Burma and Eastern Bengal and Assam.
 The Honourable the Chief Commissioner of the Central Provinces.
 The Honourable the Resident at Hyderabad.
 The Honourable the Resident in Mysore.
 The Honourable the Agents to the Governor General for Rajputana, Central India and Baluchistan.
 The Honourable the Agent to the Governor General and Chief Commissioner of the North-West Frontier Province.
 The Consulting Engineers to the Government of India for Railways, Calcutta and Lucknow.
 The Managers, North Western, Oudh and Rohilkhand and Eastern Bengal State railways.

to the Local
Governments and
Administrations,
and to the officers,
noted in the
margin.

Ordered, also, that this order, with the tables, be published in the Supplement to the *Gazette of India*.

R. C. F. VOLKERS,
Secretary, Railway Board.

Documents accompanying.

Tables Nos. I and II, showing the railways on which the automatic vacuum brake was in use, the number and proportion of rolling stock fitted with the brake, the progress made in fitting stock since the previous half-year, and the results of working the brake during the six months ended the 30th June 1906.

Enclosure to the Railway Board's letter No. R. Stat. $\frac{11}{28}$ of 1906.

Progress in the introduction of, and results of working, the automatic vacuum brake on the railways in India during the six months ended the 30th June 1906—Tables Nos. I and II.

TABLE NO. I.
Statement showing for the six months ended the 30th June 1906, the railmats on which the automatic vacuum brake was in use, the mileage run by trains fitted with the
vacuum brake, and the number and proportion of rolling stock fitted, and the progress made in fitting stock since the previous half-year.

TABLE NO. II—*contd.*

Statement showing, for the six months ended the 30th June 1906, all cases in which the automatic vacuum brake failed to act when required to be brought into action, or caused delay in the working of trains—*contd.*

1	2	3	4	5
Railway.	Name or description of brakes which failed or caused delay in the instances specified in column 4.	Date of failure.	Instances under the three following heads, separately, of :— (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent ; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required ; (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake ; distinguishing whether they arose from neglect or inexperience of servants, or from failure of machinery or material.	Number of miles run by trains fitted with the automatic vacuum brake.
5' 6" gauge— <i>contd.</i> East Indian— <i>contd.</i>	Vacuum, automatic.	24th February 1906.	(ii) <i>Failure of material.</i> —No. 13 up train lost 40 minutes and worked non-vacuum from Howrah to Asansol, owing to the hose pipe between the engine and tender having broken.	
		25th February 1906.	(iii) <i>Failure of material.</i> —No. 17 up train lost 9 minutes between Ganaur and Samalkha and worked non-vacuum from Samalkha to Umballa, owing to the breakage of the vacuum pipe on the foot plate.	
		13th March 1906.	(iii) <i>Failure of material.</i> —No. 7 up train lost 25 minutes and worked non-vacuum between Nawadah and Gya, owing to the train pipe of the engine breaking.	
		12th May 1906.	(iii) <i>Neglect of servants.</i> —No. 7 up passenger train lost 47 minutes and worked non-vacuum from Jhajha to Gya, due to defective adjustment of the brake of a carriage.	
		20th May 1906.	(iii) <i>Neglect of servants.</i> —No. 7 up passenger train lost 29 minutes and worked non-vacuum from Jhajha to Gya, due to defective vacuum.	3,236,628
		25th May 1906.	(iii) <i>Failure of machinery.</i> —No. 4 down Bombay mail train lost 17 minutes at Karchana, 13 minutes at Bheerpur and 10 minutes at Mirzapur, owing to the piston of a Great Indian Peninsula railway 3rd class bogie carriage having jammed.	
		5th June 1906.	(iii) * <i>Neglect of servants.</i> —No. 7 up train lost 45 minutes and worked non-vacuum from Jhajha to Gya, due to defective adjustment of the train pipe of a horse box.	
		12th June 1906.	(iii) <i>Neglect of servants.</i> —No. 7 up train lost 30 minutes at Tilaiya and worked non-vacuum from Jhajha to Wazirganj, due to a perished and broken hose pipe being used with a 3rd class carriage.	
		22nd June 1906.	(ii) <i>Neglect of servants.</i> —No. 7 up train lost 5½ minutes at Kiul and Sheikhpura and worked non-vacuum to Gya, due to defective vacuum on the engine.	
Great Indian Peninsula.	Vacuum, automatic.	...	(i) and (ii)—Nil.	
		1st January 1906.	(iii) <i>Failure of material.</i> —No. 6 up mail train was detained 25 minutes at Delhi Sadr, the driver being unable to maintain vacuum, owing to the release valve of a 3rd class carriage leaking badly.	See page 11.
		7th January 1906.	(iii) <i>Failure of material.</i> —No. 12 up passenger train started 35 minutes late from Agra Road, the driver being unable to create sufficient vacuum, owing to the piston neck ring and release valve diaphragm of a horse box leaking badly.	
		19th January 1906.	(iii) <i>Failure of material.</i> —No. 6 up mail train was detained 8 minutes at Delhi Sadr, the driver being unable to maintain sufficient vacuum, owing to a leak in the train pipe of a luggage van.	

TABLE NO. II.—*contd.*

Number of miles run by trains fitted with the automatic vacuum brake.
S & gauge— <i>contd.</i> Great Indian Peninsula— <i>contd.</i>	Vacuum, automatic	21st January 1906.	(iii) <i>Failure of material.</i> —No. 15 down passenger train was detained 12 minutes at Sholapur, and worked non-vacuum to Shahabad, owing to the steam pipe of the engine having burst at the flange.	
		1st February 1906.	(iii) <i>Neglect of servants.</i> —No. 5 down mail train was detained 8 minutes at Nandgaon, the driver being unable to create vacuum, owing to a Clayton coupling washer on the flexible pipe of a postal bogie composite being deficient.	
		1st February 1906.	(iii) <i>Failure of machinery.</i> —No. 16 up passenger train was detained 30 minutes at Kem and 10 minutes at Diksal and worked non-vacuum to Lonavla, owing to the large ejector of the engine having got out of order.	
		15th February 1906.	(iii) <i>Failure of material.</i> —No. 5 down mail train lost 5 minutes on the journey, owing to a heavy leak in the front universal coupling flexible pipe of the engine.	
		17th February 1906.	(iii) <i>Failure of material.</i> —No. 12 up passenger train worked non-vacuum from Bina to Bhopal, owing to the universal hose pipe of an officer's carriage being torn.	See page 11.
		1st March 1906.	(iii) <i>Neglect of servants.</i> —No. 25 down passenger train lost 18 minutes between Bombay and Kalyan, owing to an improper adjustment of the brake blocks of a bogie brake-van and a composite carriage, which caused the blocks to bind on the wheels.	
		3rd March 1906.	(iii) <i>Failure of material.</i> —No. 12 up passenger train started 12 minutes late from Jhansi, owing to a leakage in the piston neck rings of a 3rd class carriage and the defective fitting of the Clayton coupling washer.	
		13th March 1906.	(iii) <i>Failure of material.</i> —No. 84 up local passenger train was detained 10 minutes at Ghat Kopar, due to a leakage caused by the partial separation of the universal hose couplings of two carriages after an application of the brake.	
		15th March 1906.	(iii) <i>Failure of machinery.</i> —No. 85 down local passenger train started 25 minutes late from Bombay and worked non-vacuum to destination, the driver being unable to create vacuum owing to the steam disc valve being off the face.	
		16th March 1906.	(iii) <i>Failure of machinery.</i> —No. 58 up local passenger train lost 12 minutes on the journey and worked non-vacuum throughout, owing to pieces of brass lodging in the combination ejector and preventing the steam disc valve resting on the face.	
		17th March 1906.	(iii) <i>Neglect of servants.</i> —No. 12 up passenger train started 15 minutes late from Jhansi, owing to leakage caused by the flexible hose pipe in the rear not being properly fixed on the dummy plug.	

TABLE No. II—contd.

Statement showing, for the six months ended the 30th June 1906, all cases in which the automatic vacuum brake failed to act when required to be brought into action, or caused delay in the working of trains—contd.

1 Railway.	2 Name or description of brakes which failed or caused delay in the instances specified in column 4.	3 Date of failure.	4 Instances under the three following heads, separately, of:— (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required; (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake; distinguishing whether they arose from neglect or inexperience of servants, or from failure of machinery or material.	5 Number of miles run by trains fitted with the automatic vacuum brake.
<i>5' 6" gauge—contd.</i>				
Great Indian Peninsula—contd.	Vacuum, automatic.	21st March 1906.	(iii) <i>Neglect of servants.</i> —No. 14 up passenger train was detained 13 minutes at Gwalior, owing to the universal hose couplings between two carriages having been pulled apart in consequence of a slack screw coupling.	
		31st March 1906.	(iii) <i>Failure of material.</i> —No. 5 down mail train was detained 7 minutes at Bhilsa and worked forward non-automatic, owing to a leak in one of the flexible pipes of the dining car.	
		8th April 1906.	(iii) <i>Neglect of servants.</i> —No. 11 down train lost 41 minutes on the journey, owing to the driver having improperly manipulated his fire and dropped in steam thereby failing to maintain a constant vacuum.	
		12th April 1906.	(iii) <i>Inexperience of servants.</i> —No. 14 up passenger train worked non-vacuum, owing to the inexperience of the driver.	
		12th April 1906.	(iii) <i>Neglect of servants.</i> —No. 14 up passenger train lost 30 minutes at Bijrotha, and worked forward non-automatic, owing to the driver tampering with the adjustment of the small ejector cone and not bringing the steam holes well under those of the larger cone.	
		14th April 1906.	(iii) <i>Neglect of servants.</i> —No. 5 down mail train lost 15 minutes at Nasik, owing to the defective adjustment of the adjusting nut of the brake of the engine.	See page 31.
		14th April 1906.	(iii) <i>Neglect of servants.</i> —No. 11 down passenger train lost 22 minutes at Jhansi, owing to a leakage which the driver was unable to locate, and 20 minutes on the journey through mismanagement of the brake by the driver.	
		17th April 1906.	(iii) <i>Failure of material.</i> —First portion of No. 6 up mail train worked non-vacuum to Bhopal, owing to the passenger communication valve of a North Western railway 1st class carriage being out of order.	
		18th April 1906.	(iii) <i>Neglect of servants.</i> —No. 602 up mail train worked non-automatic from Pokhryan owing to the engine not steaming freely through mismanagement on the part of the driver.	
		20th April 1906.	(iii) <i>Neglect of servants.</i> —No. 81 down local passenger train started 5 minutes late from Bombay, due to the flexible hose pipe of the rear brake-van being off the seating of the dummy plug.	
		23rd April 1906.	(iii) <i>Failure of material.</i> —No. 11 down passenger train lost 43 minutes and worked non-automatic owing to the engine not steaming sufficiently in consequence of the blast pipe and blower joints giving.	

TABLE No. II—contd.

No. 1028-1042-116.

GOVERNMENT OF INDIA.
DEPARTMENT OF COMMERCE AND INDUSTRY.

EMIGRATION.

RESOLUTION.

Dated Calcutta, the 31st January 1907.

THE Government of India have received from His Majesty's Secretary of State for India a copy of a Bill passed by the Parliament of Cape Colony to repeal the Immigration Act of 1902, extracts from which were published in the *Gazette of India* with Resolution No. 42-4, dated the 20th February 1903. The more important provisions of this law which is entitled "The Immigration Act, 1906" are noted below for general information.

2. The most important change effected is that, whereas under the Act of 1902, Asiatics domiciled in South Africa were not included in the category of "prohibited immigrants," the present Bill exempts those persons only who are born in that country. Asiatics lawfully resident in the Colony, are permitted, however, to be absent temporarily under permits issued under Regulations approved by the Governor.

3. The Governor General in Council requests all Local Governments to take such measures as seem to them best calculated to make the provisions of the Bill generally known to natives of India, more especially in places from which emigration to Cape Colony is believed to be most common. Intending emigrants should be warned at the ports of embarkation of the difficulties they may encounter in proceeding to this Colony.

"2. In the construction of this Act the following expressions shall, unless the contrary intention appears, bear the meanings hereby respectively assigned to them, that is to say:—

'Ship' shall include any ship, vessel or boat or description thereof used in navigation.

'Master' shall include any person other than a pilot in charge or command of any ship.

'Immigrant' shall mean and include any person who arriving from without this Colony enters or claims to enter by land or sea.

"3. Subject to the provisions of this Act, it shall be unlawful for any immigrant who is or appears to be of any one of the following classes to enter this Colony by land or sea; and every such immigrant shall be termed a 'prohibited immigrant':—

(a) Any person who, when asked to do so by any duly authorized officer shall be unable through deficient education to himself write out

and sign in the characters of any European language an application to the satisfaction of the Minister; provided that for the purposes of this sub-section Yiddish shall be accepted as a European language.

(b) Any person who is not in possession of visible means of support or is likely to become a public charge.

" 4. The provisions of the preceding section shall not apply to any immigrant who is of any of the following classes:—

(c) The wife and any child under the age of 10 years of any person who is permitted to immigrate into the Colony under the provisions of this Act.

(f) (a) Persons born in South Africa.

(b) Persons of European birth domiciled in South Africa

(g) Any Asiatic who having, when lawfully resident within the Colony, obtained from the Minister a permit issued under such Regulations as shall be proclaimed thereof by the Governor, authorising him to temporarily absent himself from the Colony returns in accordance with the terms and conditions of such permit.

" 5. Any person found to have immigrated at any time into this Colony by land or sea in violation of the provisions of this Act or of 'The Immigration Act, 1902,' shall be liable to a penalty of £50 or in the alternative to three months' imprisonment with or without hard labour, and to be removed at any time from within the limits of the Colony and to be detained in such custody as may by regulation be prescribed pending such removal.

" 6. Any master of any ship who knowingly, directly or indirectly allows any immigrant to leave his ship, whereby such immigrant contravenes any provisions of the Act, and the owners of any such ship which any such immigrant so leaves shall be jointly and severally liable to a penalty of £100, and to a further penalty of £20 for each such immigrant landed in excess of the number of five. Such ship may be refused a clearance till such penalty has been paid, and may in default of payment by or on behalf of the master or owners and by order of the Supreme Court be attached and declared executable in satisfaction of any writ issued for the recovery of any such penalty, provided that in lieu of granting such order, it shall be lawful for the Court to accept such security for the payment of such penalty as may appear to be adequate.

" 7. Any person aiding or assisting any person in any manner whatsoever in the contravention of any provision of this Act, or of the regulations framed thereunder or making any false declaration in order to obtain for himself or another person any certificate or other recommendation for the purposes of this Act, or entering into any contract for the purposes of any evasion of the provisions of this Act, shall be liable to a fine not exceeding £100, or to imprisonment with or without hard labour for a period not exceeding six months.

" 8. It shall be lawful for the Governor from time to time by Proclamation to make regulations in order to prevent any immigration into this Colony contrary to and in violation of the provisions of this Act, and to appoint officers within and beyond the limits of the Colony to carry out such regulations, and to provide for the removal from within the territorial limits of the Colony of any persons who are, under and by virtue of the provisions of this Act, prohibited from immigrating thereto, and settling therein, and to provide for the temporary custody, control and accommodation of such persons pending their removal as aforesaid, and to provide for the importation, reception, accommodation, maintenance, registration, distribution and contractual engagements of persons immigrating under any scheme approved by the Governor ; and to provide for the issue of certificates and other documents under such regulations and the payment of fees therefor,

and to provide for the passage of prohibited immigrants through the Colony or for their temporary residence therein and to provide for and prescribe the deposits of security for their journey through the Colony or leaving it within the period allowed to them, and generally in furtherance of the objects and intents of this Act.

"9. It shall be lawful for the Governor to prescribe penalties for the contravention of any regulation made by him under this Act, provided that no penalty in respect of any one contravention shall exceed a fine of £100, or in default of payment thereof, imprisonment with or without hard labour for a period exceeding 12 months, or to imprisonment with or without hard labour and without the option of a fine for a period exceeding 12 months.

"10. This Act may be cited as 'The Immigration Act, 1906'."

ORDERED that a copy of the above Resolution be forwarded, for information, to the

The Secretary to the Government of Madras.

The Secretary to the Government of Andhra.	Bombay.
20 " 20 " 20 "	Bengal.
20 " 20 " 20 "	the United Provinces.
20 " 20 " 20 "	the Punjab.
20 " 20 " 20 "	Burma.
20 " 20 " 20 "	Eastern Bengal and Assam.
Hon'ble the Chief Commissioner of the Central Provinces. Chief Commissioner of Coorg.	
	of Ajmer-Merwara.
Hon'ble the Chief Commissioner of the North-West Frontier Agent to the Governor-General in Baluchistan.	

be forwarded, for information and guidance, to the Local Governments and Administrations noted in the margin and to the Home and Foreign Departments for information.

Ordered also, that a copy be published in the Supplement to the *Gazette of India* for general information.

W. L. HARVEY,
Secretary to the Government of India.

*Printed and Published for the GOVERNMENT OF INDIA, at the Office of the SUPERINTENDENT OF GOVERNMENT
PRINTING, INDIA, No. 8, Hastings Street, Calcutta.*

SUPPLEMENT TO The Gazette of India.

No. 6.} CALCUTTA, SATURDAY, FEBRUARY 9, 1907.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall Summary for the seven days ending at 8 h., on Thursday, the 7th February 1907, based on the Indian Daily Weather Reports of the period.

Rainfall occurred during the first two days of the week in north-east India, Orissa and the extreme north of Burma, but weather was dry in other parts of the Indian region, except for a few falls of snow in Kashmir. On the 2nd an area of low pressure appeared in north Bombay, and on the 3rd extended eastward over the central parts of the country, giving a few thunderstorms in the Central Provinces. On the next morning a depression, which had been affecting Persia on the 1st, entered north-west India, and together with the existing area of low pressure in north Bombay and the central parts of the country established low pressure conditions over a large region extending from Sind to the east of the Central Provinces. This distribution gave scattered falls of rain on that day in lower Sind, Rajputana, the Central Provinces, the east of the United Provinces and Bihar, and light precipitation in Baluchistan and the upper India hills. The depression from Persia advanced eastward during the next twenty-four hours, and on the morning of the 5th pressure was in largest defect in Rajputana, the east of Central India and the adjacent districts of the United Provinces. With the exception of Baluchistan, Sind and the central districts of the United Provinces the disturbance had given rain over the whole of the plains of northern India, west of Bengal, and snow in the hills. Pressure continued low in north-west and central India, the area of largest deficiency of pressure being transferred on the 6th to Rajputana and the south-west Punjab, and nearly general light to moderate rain fell in the United Provinces, the east of Central India, the central districts of the Central Provinces and the Punjab, excluding the south-western districts. Rain continued
